README

Poll Everywhere (Instructors) [DO NOT PUBLISH THIS PAGE]

Info: Course Management is Now Enabled for All Users!

Course management enables new grading methods for quizzes, participation, or attendance activities, to help organize activities by course and allow more efficient roster management.

Info: Poll Everywhere Roster Sync/Score Passback is Now in Your Course Menu!

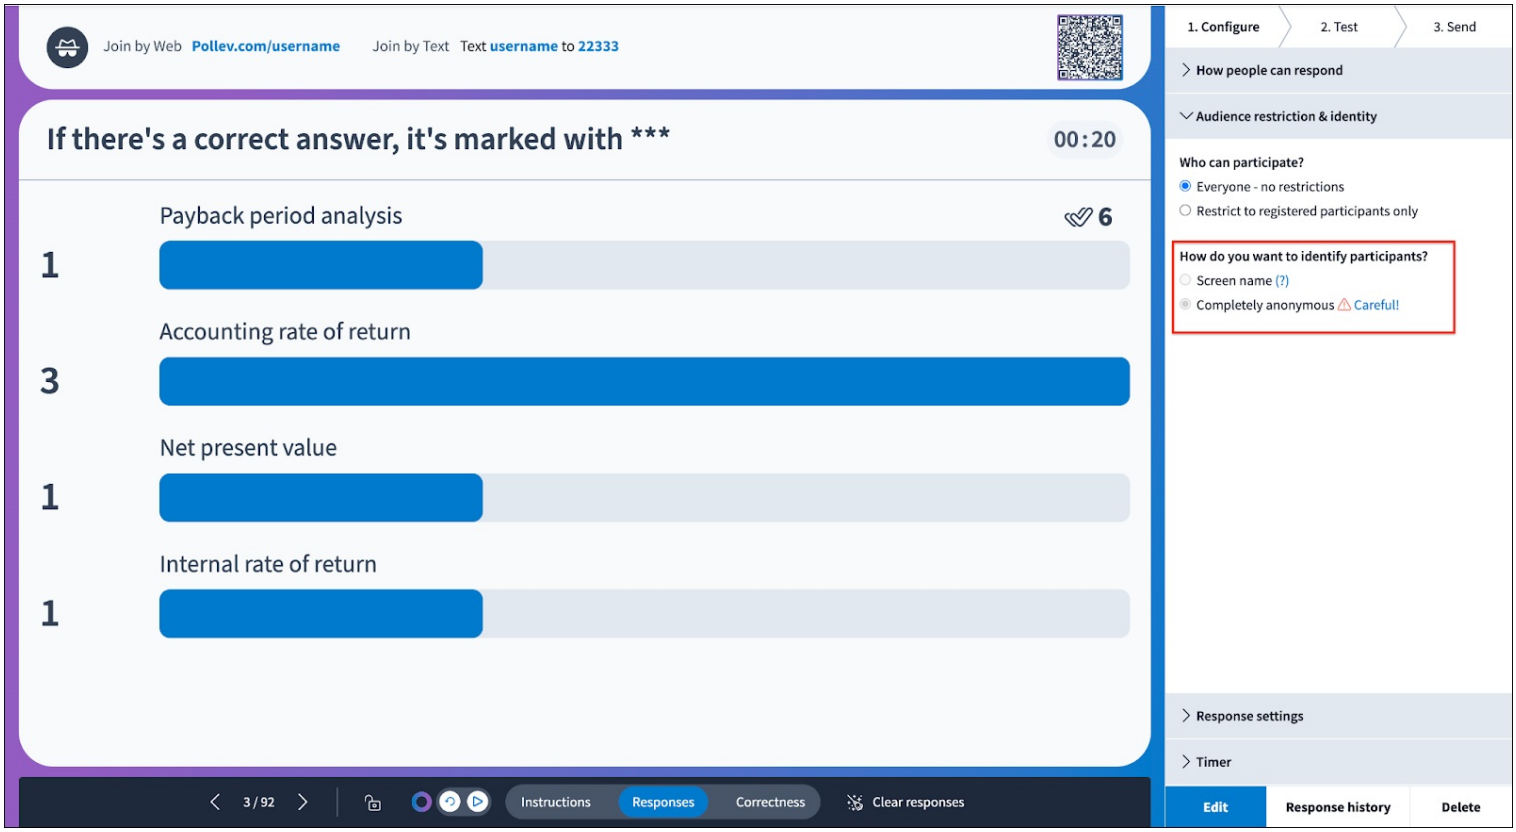
Previously, to launch "Poll Everywhere Roster Sync/Score Passback" processes, instructors could use the link of the same name in the default, "Information and Tools for Instructors" module. Moving forward, instructors will sync scores from their Poll Everywhere accounts to their course Gradebooks using a "Poll Everywhere" link in their Navigation Menus.

- Enabling Poll Everywhere in Your Navigation Menu

What is the â€œPoll Everywhereâ€ Link in My Course Menu?

Enabling the "Poll Everywhere" link in your course menu connects your course to the Poll Everywhere integration with Canvas, allowing you to access Poll Everywhere directly through the link. Use it to perform a course roster sync and/or score passback to your Canvas course Gradebook.

***Note:** If you plan to give credit for participation using Poll Everywhere, your Poll Everywhere activity's â€œAudience restriction and identityâ€ settings should remain set to the default â€œRestrict to registered participants only,â€ requiring that students log in to respond to polls and activities:



Caution: Anonymous Polling

If you want to track participation or give a score, be careful when enabling the setting for students to participate anonymously (pictured above). It's not possible to later reverse this setting after it was previously enabled in order to identify students by their responses to give them credit.

Important Tip: Poll Everywhere Has Attendance Management with Geofencing Capabilities!

How to Use Poll Everywhere

Poll Everywhere is UCRâ€™s platform for classroom polling that provides an easy and immediate solution for student engagement. Poll Everywhere can also be used for distributed polling and surveys.

Use Poll Everywhere to create a dialogue with your students. Get to know their preferences, opinions, perspectives, and demographics. Polls can be used as a tool for formative assessment through real-time checks for understanding, or they can be used to take the "temperature" of a room.

There are a number of question types available through Poll Everywhere. Use them to introduce provoking questions, recall questions, conceptual questions, or predictive questions. Students can participate anonymously to see where they stand in relation to their peers. In addition, instructors can gamify their polling by introducing trivia or by having students participate on teams.

Getting Started: How to Log in to Poll Everywhere

With UCR's single-sign-on integration, thereâ€™s no need for instructors or students to "Sign up" or create a Poll Everywhere account. Accounts get provisioned when you first log in through campus systems. "Log in" at polleverywhere.com using your campus NetID@ucr.edu, click "Next," and then follow the prompt to "Log in with UCR." You'll be re-directed to authenticate into campus systems using your NetID and Password.

- How to Log in via the Poll Everywhere Website (Video)
- How to Set up a Poll Everywhere Presenter Account or Log In to Poll Everywhere

***NOTE**: Staff and TAs who want UCR "Presenter" accounts can submit the "Poll Everywhere Presenter Request" form.

Activate polls or activities you've created through your account using a web browser, or download and install a plug-in to insert and administer them through slides in "Presentation" mode or "Slideshow" view. Supported presentation platforms include PowerPoint, Keynote, and Google Slides (*Chrome only).

***NOTE:** You can only "activate" one poll at a time unless you distribute a "Response link" to an activity or a survey.

Students will respond to your polls either by using the mobile app, or by logging in at pollev.com through a computer browser.

Caution: Use the Latest Version of the PowerPoint Plugin!

The user interface changes will not require an app upgrade, but make sure that you are using the latest versions of the PowerPoint plugin:

- PowerPoint for Mac Releases
- PowerPoint for Windows Releases

Poll Everywhere Resources and Support

For support with using Poll Everywhere, instructors can access the support pages at support.polleverywhere.com or email support@polleverywhere.com.

The Poll Everywhere support team is available for support 5am to 5pm PT, Monday through Friday at 1 (800) 388-2039 or Internationally at 1 (773) 382-0377.
